

RFA 08-002 - Strengthening District Level Provision of Services for Orphans and Other Vulnerable Children

Please also note the extension of the deadline for proposal submission.

Please also note the attached template for preparation of the Implementation Plan.

Question 1: The application guide is quite clear that, "Applicants must respond directly to the mapping reports and service delivery plans of individual districts, and may propose working in only one district per application." However, in the mapping page of the RFA documents, there is no Kampala District Mapping Report or Strategic Plan. Please can you clarify (a) whether you will accept responses for RFA 08-002 in respect of Kampala, and (b) what Mapping report should we be responding to?

Answer: Yes, applications that propose working in Kampala district will be accepted. Kampala's mapping report and strategic plan are now available at www.CoreInitiative.org and at www.Aidsuganda.org under entries for Kampala District in Central Zone.
